

**MZUZU UNIVERSITY**

**MEMO**

**TO: ALL LEVEL 4 ICT STUDENTS**  
**FROM: STUDENT RESEARCH PROJECT COORDINATOR**  
**DATE: 08-05-2023**  
**RE: RESEARCH PROJECT TOPIC DEFENSE**

The above subject matter refers.

I am writing to remind you that the Project Title Defense is scheduled for tomorrow, and it is mandatory for all ICT Level 4 students. The title defense is a crucial part of your research project, and it is the first step in developing a high-quality research proposal.

During the defense, you will present your project title to the faculty members for approval. Your project title should be innovative, creative, and should solve real-world problems. It is important to note that your project title sets the tone for your research, and it should be well thought out and meaningful.

The Project Title Defense will take place as follows:

Venue: ICT Lab 2

Date: 06-05-2023

Time: 8:00 AM.

Each student will be required to present for not more than ten minutes and then answer question from the panel. Student can prepare a PowerPoint presentation or a printed project abstract. The ppt or abstract must have the following:

1. Project Title
2. Project Background
3. Research gap or Project Rationale
4. High Level Project Design (Languages, Technology and Architecture proposed)

See the attached presentation schedule for your reference

Regards,

Donald Phiri

Students Research Projects Coordinator.
